HEADS.....We Win !

PUBLIC AWARENESS PROGRAM ON HEAD INJURY
NSICON-2013, NCPA, December 11, 2013

"An event for the Head Injury Foundation and the Neurological Society of India, both institutions that I have supported and am committed to work voluntarily, gives vivid descriptions through statistics and visuals what ails our system ... the traffic conditions, the medical care and the psychological ramifications of those that suffer the misery and the horror of accidents that mar the life and career of the young" - Amitabh Bachchan

Message from the President

Dear Friends and Colleagues,

I would like to thank you all for the kind support you have extended to me during my tenure as the President of BNA.

It was a very fruitful year for our association. The NSICON-2013, that we hosted at NCPA in December 2013, was a great success and about 1200 delegates, not only from all across India but also from other countries, participated in this grand conference. For the first time, we had an official participation from the Pan Arab Neurosurgical Society [PANS], American Association of South Asian Neurosurgeons [AASAN], and Association of Indian Neurologists in America [AINA] in the Annual Conference of NSI.

BNA has grown considerably in past few years and now we have more than 150 members. The regular monthly clinical meetings at various Hospitals have been proven to be very interesting and useful for our residents and consultants. I thank Dr. Suresh Sankhla in particular, as the Secretary of BNA as well as the Organizing Secretary of NSICON 2013, for his active role in making the entire academic programme of last year memorable. I am sure, the same tradition will continue with the next President, Dr. Deopujari. I wish him all the best.

I thank all the Executive Committee Members as well as the members of BNA for their trust and support throughout my tenure.

Long Live BNA!

With Best Wishes

Dr. Nirmal Surya

BNA President

Dr. Nirmal Surya
PRESIDENT

Message from the President Elect

Dear Colleagues,

As the President-Elect of Bombay Neurosciences Association, it is my great pleasure to invite you to the Annual Meeting of Bombay Neurosciences Association (BNA) at Bombay Hospital, Mumbai on 20th April, 2014.

It is indeed a privilege and honor to lead this group of neuro-professionals in the city of Mumbai which has been at the forefront of neurosciences in India over several decades.

It will be an effort of this group to make our future interactions more fruitful. As you are aware, we are trying to concentrate more on activities directed towards residents, non-institutional practitioners and also trying to create awareness of neurological diseases and trauma amongst medical community as well as citizen at large. I hope that our BNA team will be able to fulfill many of these goals over the next year.

I would like to thank you everyone for this opportunity.

Best Regards,

Dr. C. E. Deopujari
President - Elect, BNA.

Dr. C.E. Deopujari
President Elect

From Secretary's Desk

Dear Colleagues,

The academic year 2013-14 remained extremely busy and eventful.

First and foremost, I wish to thank our President, Dr. Nirmal Surya, for his guidance and help to ensure smooth running of BNA's academic programs through out the year. I would also like to appreciate the support that I received from the executive committee and members of BNA for yet another year full of academic activities.

The 62nd Annual Conference of NSI was organised successfully from December 12-15, 2013, at NCPA. Preconference workshops, conducted at the Grant Medical College & Sir JJ Hospital, Bombay Hospital, and Hotel Trident were enjoyed by the delegates. The "Public Awareness Program on Head Injury" on 11th December witnessed a large participation from the celebrities, Mumbai Police, media & NGOs, school children, Rotary, delegates of NSI & SINN, and others. The program was organised jointly by BNA, NSI, IHIF, and the Traffic Police of Mumbai. With this, the BNA has began its campaign against Head & Spinal Injury, which will continue in various forms of Awareness and Training Programs in the future. The basic skill life saving training program by Life Supporters Team on April 20th is designed specifically for the health professionals like the General Practitioners, ambulance personnel, nurses and paramedics, and traffic police. In future, more similar education programs will be conducted on the subjects like Head Injury in Children, and Trauma Rehabilitation, etc.

Lastly, I would like to take this opportunity to invite you to the 12th Annual Conference of BNA on 20th April 2014, to be held at Bombay Hospital. The scientific program is accredited by Maharashtra Medical Council for CME credit points and is highlighted by orations, guest lectures, presentation awards, panel discussion, and preconference workshops.

I look forward to welcoming you on April 20th.
