Message from President

Dear Friends,

We start with a new season of the Bombay Neurological Association for 2015.

It is a pleasure to welcome you all to the activities which will go on through this year.

As with preceding years, the format of the monthly meetings will remain the same and we invite participation from all the members in these meetings, to enrich them.

This year, meetings will have private practitioners sections where difficulties encountered by them can be addressed. As the monthly meetings and other activities of the association are helping the academic aspects and the feeling of fellowship has developed, the time has now come for further joint work by interested members to analyze the issues faced by neuroscientists working in Mumbai, so that these could be addressed on this forum.

We look forward to your suggestions and support to make the organization stronger and more useful to the members.

S.V. Khadilkar
President, BNA
